FIRST-CLASS PERFORMANCE

The Kunai X13-02 is optimized for demanding multitask and first-class gaming immersion experience. Powered with the new Intel® Core® i5-13600KF 13th Gen Raptor Lake processor to run wild. The new Intel® processor packs 14 cores (6P+8E) with 44MB of L2+L3 cache in total, a maximum CPU boost clock of up to 3.9GHz, base 125W power, but a lower 181W of Max Turbo Power. Our new Kunai X13-02 offers incredible definition for gamers who want a powerful experience!

PERFECT VIEW INSIDE YOUR PC

Our Kunai X13-02 is the perfect gaming PC for all your favorite titles. Enjoy optimized frame rates with powerful integrated GeForce RTX 3070 graphic card and fast 16GB DDR5 4800MHz high performance RAM that powers real time ray tracing! This system also comes with 1TB - NVMe SSD storage space so there's no need to search around anymore when it comes down to loading up new levels.

POWERFUL CONNECTIVITY FOR A POWERFUL PERFORMANCE

Armed with I/O connectivity including up to 14 USB (3.2 and 2.0) ports, eight 6.0 Gb/s SATA ports for hard disk drives, Intel 2.5 Gb Ethernet LAN and Intel WiFi 6 + Bluetooth 5.2 integrated offering fast data transmission, to stream your favorite content, and enjoy a lag-free experience on all your favorite games.

SETTING THE STAGE TO BREAK ALL LIMITS

With our Kunai X13-02, is equipped with a powerful 650W 80 PLUS power source that provides energy efficiency and reduces consumption. The 120mm AIO Liquid Cooling system ensures superior cooling for optimal heat dissipation while 4 pre-installed ARGB fans provide excellent airflow for the best performance on any PC game!
