

GREAT VENTILATION GREAT LOOK

TYPHOON

ARGB FAN, LIGHT STRIPS AND CONTROLLER KIT

OPTIMIZED COOLING

Its 3 120mm fans with ARGB lights are ready to cool your system and customize it with cool colors, or with very hot colors; It doesn't matter, they'll still cool your gear.

EFFICIENT ENERGY

The total energy use of the fans and LED strips, all connected through the hub directly to your power source, will be regulated and will not demand too much from your power unit.

HYDRAULIC BEARING

The hydraulic bearing is self-lubricating with a high-quality friction-reducing substance, which reduces operating noise and improves thermal efficiency.

RGB LIGHTING

YEYIAN Typhoon LII Master ARGB Fan Kit will let you enjoy the beautiful and cool RGB lighting effects in multiple colors.

UNIQUE LIGHT EFFECT

Includes two RGB light strips for easy installation in any corner of your PC case and control the colors and patterns of your device's lights with the included remote or through software on your computer.

SILENT COOLING TECHNOLOGY

With the **YEYIAN Typhoon LII Master ARGB**, you won't have to choose between one or the other. Focus on the all-important temperature control of your rig, while also keeping it aesthetically pleasing with 3x 120mm RGB case fans and 2x RGB strips.

Its dual ring fans will keep your rig cool, and its dazzling RGB light strips will push your lighting possibilities to the extreme.

It includes a hub that will take care of powering the fans and light strips from a single easy-to-connect source to give you full timing and customization options via the included controller or software.

TYPHOON

ARGB KIT OF FANS, LIGHT STRIPS AND CONTROL

SPECIFICATIONS

Voltage	Fans: 12Vcc---180mA / LED Strips: 5Vcc---36mA
Warranty	US 12 MX 12 ESP 24
Dimensions	120 x 120 x 25mm
Type	Double Ring 120mm ARGB Fan
Additional Characteristics	Fitted with vibration reduction pads
Fan Dimensions	120 x 120 x 25mm
Fan Speed	1300 RPM +- 10%
Fan Air Flow	41.52 CFM +- 10%
Static Fan Pressure	0.79mm / H2O +- 10%
Number of Fan Blades	7
Life Expentancy	40,000 Hrs
Voltage Output Adapter	Controller: 5Vcc
Operating Temperature	-04°F - 140°F
Infrared LED Distance	26 Feet
Noise Level	24.8dB (A) 10%
Bearing	Hydraulic
EAN	7503030358644
