

# PRACTICALLY SIZED

## HUSSAR MICRO ATX GAMING PC CASE

MAXIMUM  
AIR FLOW

MOTHERBOARD  
COMPATIBILITY

TEMPERED  
GLASS

### COOL AND CUSTOMIZABLE

Completely engineered to give both your GPU and your CPU incredible air flow and low temperatures they need to run optimally, even when compared to full-ATX systems.

### PRACTICALLY SIZED

Compatible with all standard micro ATX, and mini ITX motherboards, and can neatly contain a 168 mm tower CPU cooler for optimal performance.

### SLICK, SUPER SLICK

Includes two side tempered glass panels; an enigmatic-looking smoky window with a 70% transparency to show off your build, and a 100% all-black glass side panel.

### FIT IT

Pack in your favorite high-power GPU with no issues, if your PSU is under 170mm in length you can fit a whole 3 I/O expansion lot-requiring 350mm GPU without any issues.

### KEEP IT MANAGEABLE

Remove its cool all-black right-side tempered glass panel to reveal a hidden compartment for all your cables, with a depth of >34mm you can fit them neatly in there and avoid having your rig look cluttered.

# COMPACT & PRACTICALLY SIZED

The **YEYIAN Hussar Micro ATX** Gaming PC Case is our brand's micro ATX-sized juggernaut for all gamers who need a smaller form-factor and practical space without sacrificing any of the standard gaming rig options they've come to expect.

With enough space for you to add up to 6 fans, any GPU up to 350mm in length, PSUs up to 220mm in size and a smoky tempered glass side window to show it all off, we specifically engineered this killer case to go toe-to-toe and face-to-face with any single full-size case out there and come out on top.

A full-tower system in a small package, save yourself some space with this case.
