

CHANGE THE GAME

SIGURD

34" 2K SIGURD 4000 GAMING MONITOR

3440X1440 RESOLUTION

PIP/PSB SPLIT SCREEN

ADAPTIVE SYNCHRONIZATION

1500R CURVATURE

The 165Hz high refresh rate enables you to aim at your targets faster than other gaming monitors, eliminates picture lagging, breaks through the FPS bottleneck and releases the true potential of your GPU for a fluid gaming experience. Our Yeyian Sigurd 4000 Series Monitor will push your experience to a real-time smooth picture and give you the upper hand to fight.

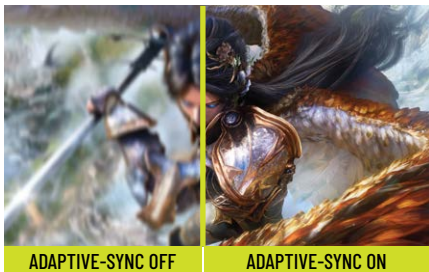

Low Blue Light Technology reduces the emission of the harmful blue light on a display in order to prevent eye fatigue. Low Blue Light technology consists of a series of filters that largely prevent the radiation emitted by this light spectrum from damaging your eyesight, in addition to preserving almost all of the blue color reproduction on the screen.

1500R CURVE MONITOR

We gave our Sigurd 4000 an integrally molded flexible display with revolutionary 1,500R curvature that adapts to the human eye bringing stronger visual encirclement and provides a real panoramic viewing experience. All of this in a clean, sleek, minimal design for the perfect Gaming Monitor.

ADAPTIVE-SYNC OFF

ADAPTIVE-SYNC ON

To ensure a tear free, low latency experience we have equipped the Sigurd 4000 with NVIDIA G-SYNC and AMD FreeSync. Low Frame Rate Compensation ensures every frame passes smoothly, eliminating unwanted motion blur and ghosting.

Equipped with an E-sports backlight and 2 Display ports, 2 HDMI 2.0 ports, VESA mount compatible with 75x75, tilts forward 5° and backward 15°

Display more content simultaneously, thanks to a 2-screen split with and Picture-in-Picture (PIP). Picture In Picture allows the users to multitask and overlay a secondary source to display anything you desire. Expand your workflow with our 34" 2K Sigurd 4000 Sceptre Ultrawide Gaming monitor.
